

May 23, 2017

Dear TCL Customer:

We recently notified you that LabCorp had completed the purchase of Pathology Associates Medical Laboratories (PAML) and PAML's interest in several joint ventures, including Tri-Cities Laboratory (TCL). TCL provides clinical laboratory services in the Tri-Cities, Washington area, as well as servicing its partner hospitals Kadlec Health System, Lourdes Health and Trios Health. We would like to take this opportunity to notify you that the TCL hospital partners have agreed to sell their interests in TCL to LabCorp.

We anticipate that the purchase of the TCL hospital co-owners' interests will be complete by fall 2017. Once complete, TCL will be wholly owned by LabCorp. There will be no significant changes to operations or services at TCL as a result of this transaction. Most importantly, the commitment to providing physicians, hospitals, and their patients with high quality clinical laboratory services, which you have come to know through TCL, will not change. Patient Service Centers, Couriers, Client Services, Testing and other customer-focused services will operate as they do today. Customers and patients will remain our highest priority.

Your service representative will continue to provide you with more information and help to answer your questions. We are committed to providing regular updates as information becomes available and encourage you to reach out to us with any questions or concerns. We value our relationship and look forward to continuing to provide laboratory testing to you and your patients for many years to come.

Sincerely,

Mike Gaulke
TCL General Manager
